Willing to relocate: Anywhere

Personal Details

Driver's License: Cars

Eligible to work in the UK: Yes

Highest Level of Education: Bachelor's

Industry: IT Operations & Helpdesk, Software Development

Work Experience

Heating and Ventilation Engineer

Direct M&E LTD - Birmingham

September 2018 to Present

I was responsible for several tasks involving aiding the engineers working on large building sites, in order to install heating and ventilation systems.

Voluntary Customer Assistant

College Stores - Birmingham

June 2014 to Present

College stores is a family owned business which I occasionally help out at, voluntarily.

Door to Door Sales Person

Evolve Worldwide - Birmingham

June 2016 to September 2016

Evolve Worldwide Ltd. is an organisation which aims to contact potential customers in order to reduce their gas and electric prices. My responsibilities involved notifying customers (if possible) how much they could potentially save on their utility bills by switching to alternative companies. This career allowed me to develop my sales and communication skills.

Voluntary Teaching Assistant

Woodlands Academy - Birmingham

June 2013 to June 2015

is a children's tuition centre that aids young students in preparation for their 11+ examinations. My responsibilities initially involved carrying out administrative work. I also occasionally assisted teachers by marking homework or mock examinations and covering lessons when teachers weren't available. Consequently, I've further developed my organisational and time-management skills.

Work Experience Placement

Rolls-Royce Controls and Data Services - Birmingham

June 2014 to June 2014

I predominantly spent my time at the electronics site of an aerospace engineering company, where I worked in a number of departments including the electronics department, test engineering department and the systems department. I also observed a group of workers who were working on the Trent 700 Refresh project; a project where a group of staff improve an existing engine known as the Trent 700, which is the engine used on the Airbus A330.

Education

A-Level or equivalent in CSIS (CompTIA Secure Infrastructure Specialist)

Netcom Training - Birmingham

November 2020 to Present
